The screenshot shows the XSplit Gamecaster application window. At the top, there's a navigation bar with buttons for "Start", "Accounts", "Settings", "Hotkeys", and "Recordings", along with a user greeting "Hello D3vlicious". Below this is a "Get started in 3 easy steps!" section with three numbered steps: 1. "Switch to any game or open console viewer", 2. "Press CTRL + TAB to show XSplit Gamecaster overlay", and 3. "Start Live Streaming or recording". Each step includes a small image showing the game overlay. Below the steps are two main sections: "Live stream or record console game play" which includes a "No capture card detected" message and an "OPEN CONSOLE VIEWER" button, and "Tutorials and FAQ" which mentions a 2-minute tutorial and provides links to "TWO MINUTES" and "WATCH MORE FEATURES". The bottom status bar shows the version "XSplit Gamecaster v.1.5.1401.1603", language "English", an "Update Available" notification, and social media icons for Twitter, Facebook, and YouTube.
